

Levitating globe

Product information

Magnetic levitating globe globe gold/brown, base brown

- levitates in a magnetic field
- globe diameter 10 cm (4")
- approx. scale 1 : 128 million
- total height 20,5 cm (8,1")
- 223 geographical names

The 16.000 control processes per second in the installed computer control with intelligent software ensure a stable, freely floating globe.

An additional permanent magnet in the base holds the globe securely to the frame when the floating mechanism is switched off.
