

Levitating globe

Product information

Magnetic levitating globe antique design

- levitates in a magnetic field
- globe diameter 20 cm (8")
- approx. scale 1 : 64 million
- total height 29 cm (11,4")
- 2715 geographical names

The 16.000 control processes per second in the installed computer control with intelligent software ensure a stable, freely floating globe.

An additional permanent magnet in the base holds the globe securely to the frame when the floating mechanism is switched off.
